### About

Max is an Emmy-nominated music editor ('Full Circle' 2023), producer, and the founder of the mobile recording studio Fox Tracks Music - through which he has produced hundreds of recordings for independent artists. Now based in Nashville, his passion lies in creating true emotional connections between an artist and their future fans through visual story-telling.

### The Story

In 2024, at a low point in my life, I was craving meaningful connections. I left Colorado to connect with the people I knew best - musicians. I traveled alone on a 5,000-mile journey through seven music cities, recording, filming, and interviewing artists with stories to share. Living out of my car for three weeks was harder than expected, but the connections I made were more beautiful than I could have ever imagined. I landed in my new home of Nashville, TN with a better understanding of music and artistry. I now feel indebted to share those stories and connections, and continue the journey with the glowing talent of Music City.

### The Vision

Now based in Nashville, I am developing this collection of performances and interviews into a multi-media experience incorporating live recordings (via my mobile studio Fox Tracks Music), live performance, and story-telling.

- **Nashville Embers:** Audience attended live-recorded sessions with the rising and established voices (the 'embers') of Nashville in an intimate, connected format.
- **AOS Tour Documentary:** The documentation of my journey through seven cities weaving together the intimate performances, conversations, and experiences I had.
- **Spotlight Series:** A growing series of micro-documentary episodes, each featuring a live performance and an interview with the artist behind the song.

### The Why

This project is meant to provide a means for artists to truly connect with an audience - the same way I was able to through my conversations with them. With a diverse range of styles and musicians, the unifying thread is resonance through emotion. My mission is to help inspire songwriters to keep making music by sparking true connections that reflect in show attendance, audience engagement, and resonance with the music.
